**Clinical Lab Coordinator**

**genlab@uwindSOR.ca**

# Clinical Learning Centre (CLC)

- Lab space on campus and virtually.
- Resource for students, faculty, and staff.
- Provides learning opportunities through appointments with peer mentors (in person and virtual) and open lab practice.
- A safe, judgement free atmosphere to ask questions about skills, clinical assignments, and much more.
- The CLC consists of the General (GEN) nursing lab and the Simulation (SIM) nursing lab.

# General Nursing Lab

The general lab is located in Toldo and the Medical Education Building (MEB). These two buildings are attached.

The general lab consists of:

- Main office (Toldo 210)
- 6-bed practice lab with mid-fidelity manikins (Toldo 212)
- 6-bed nursing skills lab including a medication room with a PYXIS (medication dispensing machine) (Toldo 214)
- 4-bed practice lab with mid-fidelity manikins (Toldo 209A)
- 8-bed experiential learning lab (MEB 3129)
- 2 primary care rooms with viewing station (MEB)

# General lab information

- The general lab is open for a variety of hours to meet the nursing student's needs.
- We book peer mentor appointments so you can have one on one time with a peer mentor.
- We offer virtual appointments.
- The general lab provides support, education, and expertise to assist the nursing students to be successful with hands on skills at their clinical settings.
- Information is posted on the CLC Brightspace site.
- Email: [genlab@uwindsor.ca](mailto:genlab@uwindsor.ca)

# General Lab Team Members

- **Clinical Lab Coordinator:** Lacey Rivest RN  
BScN CHPCN MN
- **Peer Mentors:** Sixteen 3<sup>rd</sup> and 4<sup>th</sup> year nursing students hired to work in the general lab. They help the students with hands on skills, answer questions, and support the nursing students in all levels.

# Simulation Lab

- Students in all levels participate in a SIM experience.
- SIM is an amazing experience where you will learn and collaborate with your team to care for your patients.
- It helps to prepare you for possible clinical experiences.

# Simulation Lab

The SIM lab consists of:

- 1-bed palliative care room with viewing room
- 4-bed simulation lab with viewing room and debriefing area
- 2-bed simulation lab (Toldo 209B)
- Many high-fidelity manikins
- 3 faculty offices

## SIM Lab Team Members

- **Experiential Learning Specialists:** Dr. Debbie Rickeard and Prof. Amanda McEwen
- **Peer Mentors:** Twelve 3<sup>rd</sup> and 4<sup>th</sup> year nursing students hired to work in the SIM lab. The peer mentors are specially trained to assisting with running the simulation experiences.

# Peer Mentor Program

- 3<sup>rd</sup> and 4<sup>th</sup> year nursing students
- Hired into the lab to be a resource to students
- Work in either the General Lab or Simulation Lab

## **Duties:**

- ▣➤ Assist with skill practice through virtual and in-person appointments
- ▣➤ Answer questions
- ▣➤ Observe and give feedback on technique
- ▣➤ Assist with organization of lab equipment and supplies
- ▣➤ Assist with lab setup for scheduled labs

# Resources for Fall 2024

- Clinical Lab Coordinator and Peer Mentors through appointments, sessions, and email.
- Brightspace site: Clinical Learning Centre
  - Has resources, skills videos, announcements regarding hours, appointments, information about lab expectations and much more information.

**Please add an email signature to your uwin email with your name, year of study and any other important information.**

# BScN Scrubs for Clinical and Lab

## Lab kits

- Dressing Tray
- 100ml Normal Saline
- 4x4 Sterile Gauze
- 5x9 Abdominal Pad
- 1" Transpore Tape
- Bandage Scissors
- 6" Ruler (medi-meter)
- Penlight
- BP cuff

\*subject to change. You will receive first week in ELL.

# Experiential Lab Guidelines

- No food or drinks in any lab rooms
- Respect the equipment and property in the rooms
- No pens around any simulation equipment or lab models

PRESENTATIONS BY LEADERS IN THEIR FIELD RELATING TO PATIENT SAFETY

University of Windsor

### Winter 2023 Patient Safety Learning Series Virtual Events

#### 1. The Importance of Mindfulness for Patient Safety

Wednesday, March 22, 2023  
1:00 pm to 2:00pm via Microsoft Teams

With Jennifer-Grace Sharrow, RN, MN (student),  
Critical Care Nurse, Beaumont Dearborn, Michigan,  
Certified Yoga Instructor

Mindfulness contributes to the ability to respond effectively to stressful situations. Studies support that healthcare providers who practice mindfulness are happier, safer, and calmer. Jennifer-Grace Sharrow is a critical care, registered nurse and yoga instructor who has explored mindfulness during her studies. This presentation will identify how mindfulness can be used to enhance quality of care, patient safety, and joy in work.

Register for the Mindfulness Event at this [LINK](#) for access to live or recorded event

#### 2. Engaging in Meaningful Relationships with the Indigenous Patient

Monday, March 27, 2023  
1:00pm to 2:00pm via Microsoft Teams

With Sara Williams, RN, MN, Indigenous  
Curriculum and Pedagogy Advisor, UofW Faculty  
of Nursing

The presentation will enhance understanding about intergenerational trauma due to the impact of colonization. Participants will learn about how to initiate a respectful and trusting relationship with the Indigenous patient. Sara Williams is an indigenous registered nurse with over 10 years experience working in indigenous health. Sara also led the indigenous COVID vaccinations in our local community by putting culture first.

Register for the Meaningful Relationships Event at this [LINK](#) for access to live or recorded event

These are free events open to **everyone including students, faculty/staff from all faculties** and individuals from outside the university who have an interest in patient safety!

**Certificates of attendance provided**  
These are **IPE events (Interprofessional Education)**
