

Centre for Automotive Research and Education (CARE)

CARE Building facing California Ave.

Location

The building is located on California Avenue, south of Wyandotte Street West. Surrounding buildings are the Centre for Engineering Innovation which can be found directly to the north and Alumni Hall is to the west of the building, across California Avenue.

Entrances

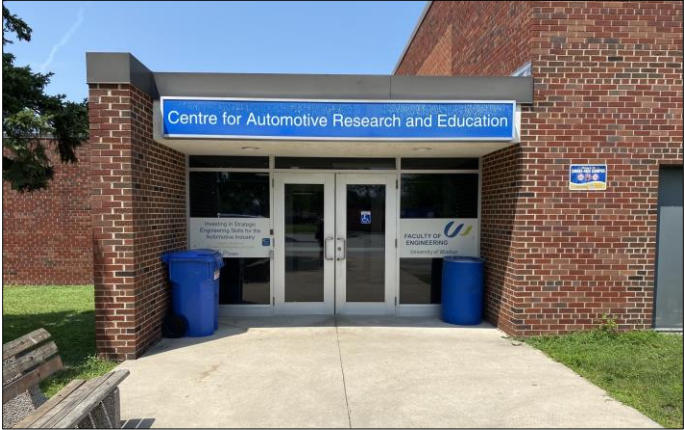

There are two (2) entrances to CARE. Both entrances are accessible and are equipped with actuators.

The north entrance faces the Engineering Parking Lot. Once inside this entrance, there is a set of stairs and lift to access main level.

1 CARE north entrance.

The south entrance provides direct access to the main level. However, the building has four changes of grade throughout. At each change, there is a lift available.

2 CARE south entrance.

Bike Racks

A bike rack is located to the north of the building across from the Engineering (EE) parking lot and to the south of the Engineering building.

Lifts

This building has four changes of grade throughout the building. At each change, there is a lift. There are directions on the lifts with whom to call for assistance or how to add lift access to employee or student cards. Lifts are only available for those with card access.

Washrooms

Floor	Type
1 st (w103 & w105)	Multi-user, accessible: men’s and women’s (2) Note: no actuator

Water Fountain

There is an accessible water fountain near the washrooms.
